OPEN LEADS — not rejected, unfinished			
		zibra.dk (Zibrandtsen family office, Son of a Tailor — DTC apparel): behind a JavaScript WAF a real browser would open.	
		Mike Repole's family office (vitaminwater, BodyArmor) led Create Wellness $20m, Mar 2026 — no resolving domain, so no address.	
		Ligo Partners, Miami: the best co-invest language found anywhere, but no named consumer deal.	
		Haldiram's: decision maker is Pawan Agrawal, Head of the family office — haldirams.com bounces, haldiramfoods.com is catch-all.	

SEED PROFILE — KEVIN QIN, RH CAPITAL

Kevin Qin is Founding Partner / Principal of RH Capital, which describes itself as "a distinguished single family office headquartered in Beijing" (rhcap.co/about). Second office at 400 Fifth Ave #31E, New York. Since Jan 2024 he is Vice Chairman of the Board and President of the Asian Family Legacy Foundation, Hong Kong (asianfamilylegacy.org/we).

Source of wealth: an operating dynasty, not a tech exit. Grandfather was a first-generation mechanical engineer in New China; in the 1970s Mr Qin senior built Ronghe (RH) Coal Transport from two trucks on the Datong–Qinhuangdao coal line; by the 2000s 10,000 tons of coal traded daily into Japan, Korea, SE Asia and Australia; then trading, personal lending, real estate and hotels. RH Capital was formed by the third generation in 2015 for VC, PE and secondary-market investing.

Mandate: six declared sectors — EV, AI, healthcare, industrial & business services, renewables, and consumer products, the last defined on their own site as "digital-first brands to premium and lifestyle categories". Flexible stage, "early breakthrough through boldest expansion". Only named holding on the site is Li Auto. No AUM is published anywhere.

Reachable at kevin@rhcap.co — a pattern guess, but SMTP-verified as a live named mailbox (kqin@, kevin.qin@ and a junk control all bounce; the published info@rhcap.co actually bounces).

WHAT THIS LIST MATCHED ON

A single family office or a principal's own vehicle deploying the family's own money; wealth from an operating business, ideally generational; a mandate that includes consumer products alongside frontier or industrial themes; flexible stage; a cross-border footprint; and structural ties into other wealthy families (a club, foundation or syndicate) — that last one is the co-invest behaviour. Team of roughly 2–10 investment staff, and a real venture programme rather than a single historic brand purchase.

HOW THE EMAILS WERE TESTED

No email was sent to anybody. Each address was tested by opening an SMTP session with the domain's own mail server and issuing RCPT TO, then disconnecting before any message body. A randomly generated junk address was tested at the same domain as a control: if the server accepted that too, the domain is a catch-all and no address there can be proven, which is recorded as UNPROVABLE rather than passed off as a find.

VERIFIED = the address is published by the firm itself and is live. GUESS — SMTP-verified live = the address was derived from a name pattern, the server accepted it and the junk control bounced. UNPROVABLE = catch-all domain, every pattern bounced, or no resolvable domain.

SOURCES AND WALLS

LinkedIn returned its logged-out wall (HTTP 999) on every attempt, so no profile was read directly. Everything here comes from firm websites fetched directly, UK Companies House coverage, PR Newswire and Business Wire originals, Entrackr, Inc42, VCCircle, Business Times Singapore, AsianInvestor, AFR, WWD, Beauty Independent, BevNET, Bloomberg Línea, CNBC and FINTRX.

Rows are sorted with every provable address first. The second tab lists the firms that were rejected and the exact test each one failed.
