What PEI gives on the free / registered tier, and what it does not

FREE / REGISTERED TIER GIVES

Verbatim, privateequityinternational.com/subscribe/ (registration modal): "Register now — Get limited access to our industry news, analysis and data, plus regular email updates."
Observed logged out on every institution profile page (data read from the page's own JSON): institution name, PEI id, LP/GP status, overview description, website, general email, full HQ street address + city/state/zip/country/region, office count, stated investment appetite (strategy / region / sector), total contact count, up to 4 NAMED contacts with job title, city, country and asset-class focus, counts of fund commitments / funds in market / closed funds, and up to 3 NAMED funds in each of those three tables with their dates.
The sitemap https://www.privateequityinternational.com/institution-profiles/content_hubs-sitemap.xml enumerates 40,404 institution profile URLs. All 40,404 were read successfully on 2026-09-15, 0 errors.
PEI 300 free page (privateequityinternational.com/pei-300/): top 10 managers only, with headquarters and amount raised.

GATED

AUM — every profile shows "Get access to [institution] total AUM" instead of a number.
Contact email addresses — rendered as dashes (recorded here as "gated", never guessed).
Fund sizes and commitment sizes — rendered as a lock icon.
Rows 11-300 of the PEI 300; the Future 40, Global Investor 150, 21 Changemakers, Women in Private Funds and LP Perspectives 2026 pages are article hubs with no tabular data logged out.
Database search tools (LP search, GP search, Fund search, Commitments, Benchmarks) require sign-in.

THE 5-PROFILE CAP

NOT CONFIRMED. The wording could not be found on any public page. Searched: /subscribe/, /sign-in-faq/, /terms-conditions/, /about-us/, /database/, /my-account/, /subscription-options/ (404), and the JSON behind the profile pages, for: 'profile view', '5 profiles', 'five profiles', 'remaining', 'free preview', 'viewed'. Zero hits.
Whether the cap is 5 total, 5 per month, 5 per day or 5 concurrent needs a logged-in session.
The Browserbase browser provider was down for the whole of this job (three browser.start failures: one page.goto timeout, two browserType.connectOverCDP timeouts), so no logged-in read and no screenshot was possible. The figure 5 is Rahul's own report and is not quoted from PEI here.

PRICE

No price is published. privateequityinternational.com/subscribe/ offers exactly two paid tiers — "Team Access" (teams of 2–10) and "Enterprise-Wide Access" (11+) — each with only a "Request a Demo" button. No demo form was submitted and nothing was bought.
PEI's own claim for the paid tiers, verbatim: "Access 12,800+ LP and 15,100+ GP profiles with direct contact information", "Analyse 49,100+ funds and 160,000+ LP commitments", "Benchmark

fund performance with DPI, TVPI, IRR and more key metrics", "24/5 access to our research team".

THE NUMBERS IN THIS WORKBOOK

Profiles read logged out: 40,404 of 40,404 sitemap URLs. Failures: 0.
Profiles whose PEI overview says family office: 1,335.
Venture co-invest shortlist: 158. Single FOs, non-venture appetite: 472. Possible, type unclear: 415. Excluded: 290.
Every contact email on every tab is blank/gated. No email address was guessed, inferred or pattern-derived anywhere in this workbook.
